SKILLS

- React
- JavaScript
- HTML
- CSS
- Tailwind
- Bootstrap
- Python
- C++
- C

CERTIFICATIONS

MATRIX COMPUTERS

- C++ LANGUAGE
- C LANGUAGE
- DATA STRUCTURE WITH C

LINKEDIN LEARNING

- Python Essential Training
- HTML Essential Training

EXTRA CURRICULAR ACTIVITIES

- TECH PROBE - Participated in Quiz competition
- BIIND CODE - Participated in blind coding competition

VIPIN SHARMA

Software Developer

PROJECTS

FOODIE (Currently Working)

FOOD ORDERING WEBSITE

- Implemented ReactJS and utilized React Router DOM for seamless navigation.
- Utilized Swiggy public APIs to fetch real-time data for a dynamic food ordering experience.
- Applied Tailwind CSS for styling, ensuring an aesthetically pleasing user interface.
- Employed Parcel for efficient bundling

TODO LIST APP

DYNAMIC TODO LIST WEB APPLICATION

- Utilizes React and useState to manage task and description inputs and maintain a list of tasks.
- Allows users to add tasks with descriptions and delete tasks.
- Renders tasks with a clean, user-friendly interface, offering task management functionality.
- Tech Used : React , Tailwind

PASSWORD GENERATOR

WEB BASED APPLICATION

- Created a JavaScript-based password generator and strength checker with user-defined length and character preferences, featuring real-time feedback and clipboard copying.
- Utilized event listeners and randomized shuffling for enhanced security and usability.
- Tech Used: HTML, CSS, JAVASCRIPT

BUBBLE GAME

SIMPLE BUBBLE POPPING GAME

- Created a web-based bubble-popping game using JavaScript, featuring a 60-second countdown timer and a scoring system.
- Players click on bubbles with randomly generated numbers to earn points and can restart the game when the timer expires
- Implemented using event listeners and dynamic HTML updates.
- Tech Used: HTML, CSS, JAVASCRIPT

EDUCATION

JECRC FOUNDATION
